**RE: CLASS 1 PERMIT MODIFICATION TO HAZARDOUS  
FACILITY PERMIT  
LOS ALAMOS NATIONAL LABORATORY  
EPA ID#NM0890010515  
LANL-13-034**

Dear Messrs. Beausoleil and Dodge:

The New Mexico Environment Department (NMED) received notice from the U.S. Department of Energy National Nuclear Security Administration and the Los Alamos National Security LLC, collectively the "Permittees" dated September 12, 2013 of a Class 1 modification to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit). The modification includes Amendment 14.0 of Part A Application form, to be incorporated into Attachment B of the Permit.

NMED has reviewed the permit modification and concurs that these changes are Class 1 modification in accordance with 20.4.1.900 NMAC, incorporating 40 CFR 270.42(a). NMED has further determined that the Permittees have complied with the requirements at 20.4.1.900 NMAC incorporating 40 CFR 270.42(a). The Permittees must notice this Permit notification in accordance with 20.4.1.900 NMAC incorporating 40 CFR 270.42(a)(1)(i) and (ii). The modifications are to be put into effect as requested by the Permittees in accordance with 20.4.1.900 NMAC incorporating 40 CFR 270.42(a)(1).

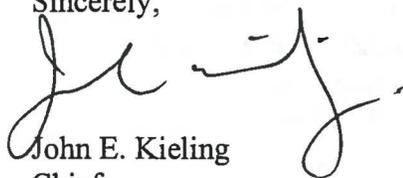

NMED notes that there were a few typographical errors and other errors in the Part A form. Estimated Annual Quantities of Waste (Column B) were highlighted as having changed on pages 5t, 5u, 5ii, and 5jj, but these quantities were not revised. The first column (Line Number) on Page 5cc has several numbering errors. The Permittees must submit errata for these pages.

NMED also notes that the Permittees shall submit a full and complete Part A Application that meets the requirements of 40 CFR 270.13, including revised maps, drawings, and photographs, by November 15, 2013.

Under separate cover, NMED also received the Permittees' letter dated September 12, 2013, requesting to withdraw two previously submitted Class 1 permit modifications to update the Part A Application form, dated June 14, 2013 and August 26, 2013. NMED hereby acknowledges and accepts the Permittees' request to withdraw those permit modifications.

Please contact Tim Hall at (505) 222-9555 if you have any questions.

Sincerely,

John E. Kieling  
Chief  
Hazardous Waste Bureau
