Title: Status of the nEDM Project

Author(s): Cooper, Martin D.

Intended for: Nuclear Science Advisory Committee Meeting

Los Alamos National Laboratory, an affirmative action/equal opportunity employer, is operated by the Los Alamos National Security, LLC for the National Nuclear Security Administration of the U.S. Department of Energy under contract DE-AC52-06NA25396. By acceptance of this article, the publisher recognizes that the U.S. Government retains a nonexclusive, royalty-free license to publish or reproduce the published form of this contribution, or to allow others to do so, for U.S. Government purposes. Los Alamos National Laboratory requests that the publisher identify this article as work performed under the auspices of the U.S. Department of Energy. Los Alamos National Laboratory strongly supports academic freedom and a researcher's right to publish; as an institution, however, the Laboratory does not endorse the viewpoint of a publication or guarantee its technical correctness.

Nuclear Science Advisory Committee Meeting
Crystal City, VA

Status of the nEDM Project

Martin D. Cooper

Co-Spokesperson

Abstract

The character of the neutron electric dipole moment (nEDM) project will be reviewed. The latest activities of the nEDM Collaboration will be presented. The establishment of technical feasibility, development of preliminary engineering, and the management plan will be covered.
