Santa Fe, NM 87505-6303

Subject: Notice of Demolition, Los Alamos National Laboratory Delta Prime Site, Buildings 21-213, 21-220, and 21-420

Reference: Letter, Bearzi to Messrs. Gregory and McInroy, dated October 7, 2009

Dear Mr. Bearzi:

Los Alamos National Laboratory (the Laboratory) is planning to initiate structural demolition of Delta Prime Site buildings 21-213, 21-220, and 21-420 on or after December 12, 2009. This notice of demolition is in response to the above-referenced letter and in accordance with the Settlement Agreement and Stipulated Final Order signed on April 10, 2007.

In regard to your request for copies of final demolition reports for each building, the Laboratory is not currently required to generate building-specific demolition reports. Upon completion of additional project milestones, a Technical Area 21 (TA-21) comprehensive report will be prepared, if required, and a copy will be sent to the New Mexico Environment Department (NMED). The report will be completed before 2011.

Additionally, as discussed between Jack Ellvinger (the Laboratory) and Katie Roberts (NMED) on the afternoon of October 27, 2009, the Laboratory has been expediting demolition of buildings at TA-21 based on current funding levels.

If you have any questions, please contact Allan Chaloupka at (505) 665-4858 (allanc@lanl.gov) or Everett Trollinger at (505) 667-0281 (etrollinger@doeal.gov).

Sincerely,

Bruce Schappell, Executive Director
Environmental Programs – Recovery Act Project
Los Alamos National Laboratory

Sincerely,

Everett Trollinger, Federal Project Director
Environmental Projects – ARRA Project
Los Alamos Site Office
