**(2) Letter, Messrs. Schappell and Trollinger to Mr. Bearzi, dated 10/29/09**

Dear Mr. Bearzi:

Los Alamos National Laboratory (the Laboratory) is planning to begin demolition of Delta Prime Site buildings 21-313, 21-2, 21-3, 21-314, 21-4, 21-315, 21-116, and 21-5 on or after June 20, 2010. This notice of demolition is provided in response to your letter (Reference 1) and in accordance with the Settlement Agreement and Stipulated Final Order (the Agreement), signed on April 10, 2007. While the order of demolition activities is subject to some variation during execution, this demolition program is planned to progress in the order stated above between June 20 and December 31, 2010.

In our previous letter (Reference 2), the Laboratory notified the New Mexico Environment Department (NMED) of the demolition of building 21-312 that began in December 2009. Demolition of building 21-312 will be resumed as part of the same activity described above, on or after June 20, 2010.

In regard to your request for copies of final demolition reports for each building, the Agreement does not require the Laboratory to generate building-specific demolition reports. As stated in Section III(21)(f) of the Agreement, the Laboratory will provide a demolition completion report if one is written.

If you have any questions, please contact Bruce Schappell at (505) 665-4897 (schapp@lanl.gov) or Everett Trollinger at (505) 667-0281 (etrollinger@doeal.gov).

Sincerely,

Bruce Schappell, Executive Director
Environmental Programs – Recovery Act Projects
Los Alamos National Laboratory

Sincerely,

Everett Trollinger, Federal Project Director
