Santa Fe, NM 87505-6303

Subject: Submittal of the Work Plan and Final Design for Stabilization of the Sandia Canyon Wetland

Dear Mr. Kieling:

Enclosed please find two hard copies with electronic files of the Work Plan and Final Design for Stabilization of the Sandia Canyon Wetland in response to the New Mexico Environment Department and approved with modification in a letter dated June 9, 2011.

This work plan provides general project background and documents the design of the proposed interim measures intended to physically and/or geomorphically stabilize the sediments in the Sandia Canyon wetland. The overall project goals and objectives are to mitigate the head cut in the lower portion of wetland and to reduce erosion at the entrance into the wetland from the 72-in. corrugated metal pipe culvert.

If you have any questions, please contact Steve Veenis at (505) 667-0013 (veenis@lanl.gov) or Ramoncita Massey at (505) 845-4675 (ramoncita.massey@nnsa.doe.gov).

Sincerely,

Michael J. Graham, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

George J. Rael, Assistant Manager
Environmental Projects Office
Los Alamos Site Office
