Subject: Submittal of the 2011 Biennial Asphalt Monitoring and Removal Report for Area of Concern C-00-041, Guaje/Barrancas/Rendija Canyons Aggregate Area

Dear Mr. Kieling:

Enclosed please find two hard copies with electronic files of the 2011 Biennial Asphalt Monitoring and Removal Report for Area of Concern C-00-041, Guaje/Barrancas/Rendija Canyons Aggregate Area.

The asphalt monitoring and removal activities described in this report were conducted to meet the requirements of the December 20, 2007, approval with direction for the Guaje/Barrancas/Rendija Canyons Aggregate Area investigation report. The approval with direction also requires performance of stormwater monitoring for four storm events at Area of Concern (AOC) C-00-041. Required stormwater monitoring data were included in the previous asphalt monitoring and removal report submitted in November 2009. Stormwater monitoring at this site continues to be performed and reported under the Laboratory's National Pollutant Discharge Elimination System (NPDES) individual permit (IP) for stormwater discharges from solid waste management units and AOCs.

If you have any questions, please contact Todd Haagenstad at (505) 665-2936 (hth@lanl.gov) or Cheryl Rodriguez at (505) 665-5330 (cheryl.rodriguez@nnsa.doe.gov).

Sincerely,

Michael J. Graham, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

George J. Rael, Assistant Manager
Environmental Projects Office
Los Alamos Site Office
