New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505

Dear Mr. Kieling:

SUBJECT: NOTICE OF PUBLICATION AND PUBLIC MAILING OF LOS ALAMOS NATIONAL LABORATORY HAZARDOUS WASTE FACILITY CLASS 3 PERMIT MODIFICATION REQUEST

The purpose of this letter is to provide evidence to the New Mexico Environment Department – Hazardous Waste Bureau (NMED-HWB) that notification to persons on the NMED-HWB maintained facility mailing list and newspaper publication for a Class 3 permit modification request to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) were conducted in accordance with the requirements of Title 40 of the Code of Federal Regulations (40 CFR) § 270.42(c)(2). The Department of Energy (DOE) and Los Alamos National Security, LLC (LANS), collectively the Permittees, submitted a permit modification request on September 30, 2013 to include an open burning hazardous waste management unit within the Permit, known as the Technical Area (TA) 16-388 Flash Pad. The Permittees are requesting a Class 3 permit modification as defined in 40 CFR § 270.42(c).

Enclosure 1 is the notification that was sent to the facility mailing list. The notification was mailed on October 7, 2013 as required by 40 CFR §270.42(c)(2). Enclosure 2 contains the newspaper publications that were published on October 2, 2013 and October 3, 2013 in the following newspapers: Santa Fe New Mexican, Albuquerque Journal – North, and the Los Alamos Monitor.

Additionally, an electronic mail (e-mail) notification was sent to the list of individuals maintained by the Permittees in accordance with Permit Section 1.13 on October 7, 2013 to notify the interested public that the permit modification request was submitted to the NMED-HWB for review.

If you have comments or questions regarding this notification, please contact Mark Haagenstad (WM-PROG) at (505) 665-2014.

Sincerely,

Michelle L. Coriz
Acting Group Leader

September 2013

Public Notice of a Class 3 Permit Modification Request and Public Meeting for an Open Burning Unit at Technical Area 16

Los Alamos National Laboratory Hazardous Waste Facility Permit, EPA ID No. NM0890010515

Activity: The U.S. Department of Energy (DOE) and the Los Alamos National Security, LLC (LANS), have requested to modify the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit via a Class 3 permit modification request. The modification requests the inclusion of an open burning hazardous waste treatment unit within the Permit.

Facility: LANL is owned by DOE, and is operated jointly by DOE and LANS. Under authority of the New Mexico Hazardous Waste Act (Section 74-4-1 et seq., NMSA 1978, as amended, 1992) and the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC), the New Mexico Environment Department (NMED) can approve or deny hazardous waste permits and closure plans, permit modifications, and amendments.

Availability: The proposed permit modification is available for public review weekdays between 8:00 am and 5:00 pm at

NMED - Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505

Copies are also available at the LANL Hardcopy Public Reading Room weekdays from 9:00 am to 4:00 pm at

Northern New Mexico Citizens' Advisory Board Office
94 Cities of Gold Road in Pojoaque, New Mexico
http://www.lanl.gov/community-environment/environmental-stewardship/public-reading-room.php

Electronic copies of the permit modification request can also be found in the **LANL Electronic Public Reading Room (EPRR) at** http://eprr.lanl.gov.

The LANL Hazardous Waste Facility Permit can be found on the NMED LANL Permit web page at:
http://www.nmenv.state.nm.us/HWB/Permit.htm

Meeting: A public meeting about the permit modification request will be held from **5:30 pm to 7:30 pm** on

October 30, 2013 at Fuller Lodge, 2132 Central Ave, Los Alamos, NM.

Comments: Any person who would like to comment on the proposed Class 3 permit modification may do so by contacting:

Dave Cobrain
NMED-Hazardous Waste Bureau,
2905 Rodeo Park Drive East, Building 1, Santa Fe, New Mexico 87505-6313
Telephone (505) 476-6000 or e-mail: dave.cobrain@state.nm.us.

The Permittee's compliance history during the life of the permit being modified is available from the NMED contact person. The 60-day public comment period for this permit modification will run from October 3, 2013 through December 2, 2013. Any person who wishes to comment on this action should submit written or e-mail comments with the commenter's name and address to the address above. Only written comments received on or before December 2, 2013, will be considered.

Facility Contact: If you have questions, please contact Los Alamos National Laboratory.

you must be unconscious.

Stewart plays ex-detective John "Scottie" Ferguson, who, after some bad luck during a chase, retires from the police force with a severe case of acrophobia. A man who used to run along rooftops to catch the bad guys, he now gets sick just standing on a step ladder. Of course, he still can't resist a mystery, so when an old acquaintance asks him to tail his glamorous wife Madeline (Novak), he does it. What's the big mystery? Well, no one thinks Madeline is cheating; rather, she might be possessed by a suicidal ghost.

From there, the situation gets increasingly rich with terror and tension, as well as beauty and human weakness.

"Vertigo" has one of those endings that bangs shut, like the lid of a casket. It says, "Take that, every other movie ever made."

"Vertigo" screens at 6:30 p.m. Thursday in the upstairs meeting room at Mesa Public Library as part of the Free Film Series. For more information, call 662-8240.

Sues: Former official claims Martinez plans to trim authority

Continued from Page A-1

The authority's former comptroller, Greg Campbell, later pleaded guilty to forgery and securities fraud. A state auditor's report determined Campbell acted alone and took no money.

The Finance Authority provides low-cost financing for capital projects by cities, counties, schools and other New Mexico governmental organizations. It operates independently from any state agency and functions like a bank for governmental infrastructure.

May joined the Finance Authority as CEO in September 2011, after serving as secretary of the Department of Finance and Administration after Martinez took office. Clifford replaced May in the Cabinet-level position.

"After waiting 174 days for any response from the governor and DFA, we have received nothing but excuses," said May's lawyer, Steven Farber. "For the administration that claims to be the most transparent in New Mexico history, the lack of transparency is outrageous. Not one email, text message, memo, document or even a piece of paper has been made available for public inspection."

A Department of Finance and Administration official told Farber in a July letter the agency had identified a large number of documents in response to the records request, but it could take weeks or months to release all of them because they needed to be reviewed by the agency's lawyer.

"Frankly, the motivation behind this lawsuit is suspect, as we've been communicating regularly with May's attorney and have been processing the reams of documents responsive to their 13-page request," Knell said in a statement.

May was never accused of any wrongdoing, but the auditor's report said Campbell was able to carry out the forgery because the authority's managers and governing board were "asleep at the wheel." May has maintained that Campbell lied to him and other senior staff about the preparation of the audit.

Since his firing, May has sought to restore his reputation, and his public records request was part of that effort.

May contends the Martinez administration has planned to scale back or dismantle the authority, which arranges financing for public projects that otherwise could generate business for private firms.

Administration-backed legislation to impose state oversight of the authority's budget and accounting failed in the Legislature earlier this year.

The lawsuit said the failure to disclose documents prevents May from determining whether administration officials "played a significant role in creating and continuing a biased 'investigative' process" for the fraudulent audit.

May objects that the authority's governing board scrapped his initial plan as CEO to hire a former federal prosecutor to investigate how the audit was faked.

The board instead decided that a similar legal and accounting probe would be handled through the State Auditor's Office. Board members maintained that would ensure the independence of the review, but May disagreed.

lab, managed by a consortium led by Bechtel Corp., and the National Nuclear Security Administration for the problems.

"There's a lot of just clear, plain incompetence," said Greg Mello of the Los Alamos Study Group, an Albuquerque-based organization long critical of the lab's project management.

Things have gotten better in cognition that the Laboratory and NNSA have made significant progress in the last two years," lab spokesman Kevin Roark said in a statement.

The radioactive waste treatment project has fallen victim to repeated changes in requirements and design plans, according to a report from the Department of Energy's Office of Inspector General, with estimated costs at

Man's shooting death under investigation

from **PAGE 1**

The spokeswoman would not comment on two things mentioned in a search warrant affidavit relating to the incident: It says the handgun was found in the victim's upturned right hand and that the gun was "not in a natural position for its use."

The affidavit also states that there was blood on the wall of a kitchen hallway that "did not appear to be consistent with the positioning of the male's body on the floor..."

Police are waiting for an autopsy report from the Office of the Medical Investigator on the cause and manner of the man's death, Westervelt said. This report will also include a toxicology screen, requested by police to see if the man had been drinking.

Police are also awaiting forensics tests of evidence taken from the apartment. That evidence includes the black five-shot revolver, one spent .38 caliber casing, two live .38 caliber cartridges, two empty bottles of scotch, a cigarette butt, blood swabs and three empty cans of Red Bull energy drinks.

CHINESE VISIT SANTA FE
