 Dallas, TX 75202-2733

**Subject: NPDES Permit No. NM0030759 - Submittal of Analytical Results for Site 54-017 in Site Monitoring Area PJ-SMA-20**

Dear Ms. Johnsey:

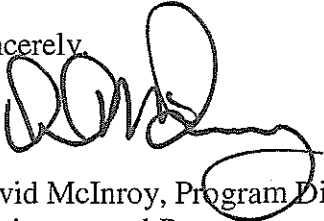

This document is being submitted in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) Permit No. NM0030759 for Los Alamos National Laboratory, issued to Los Alamos National Security, LLC, and the U.S. Department of Energy, effective November 1, 2010. As specified in Part I, Section E.1(b):

If the Permittees decide to achieve corrective action under this Section through installation of measures to totally eliminate exposure of pollutants to stormwater at a Site, Permittees will be in compliance with this Permit at that Site once they have certified and demonstrated to [the U.S. Environmental Protection Agency], through submission of certified as-built drawings, that such measures have been properly installed to perform their function to totally eliminate exposure of pollutants to stormwater, and no further confirmation sampling is required, unless required by Section E.5(c). Thereafter, Permittees shall collect one sample and make the analytical results available via email notification and on the public website pursuant to Section I.7 of the Permit.

Accordingly, analytical results are presented from the sample collected following the completion of corrective action by certification of a no exposure condition at Site 54-017 in site monitoring area PJ-SMA-20. The analytical results can be accessed at the following website:  
<http://www.lanl.gov/community-environment/environmental-stewardship/protection/compliance/individual-permit-stormwater/index.php>.

If you have any questions, please contact Steve Veenis at (505) 667-0013 (veenis@lanl.gov) or David Rhodes at (505) 665-5325 (david.rhodes@nnsa.doe.gov).

Sincerely,

David McInroy, Program Director  
Environmental Programs –  
Corrective Actions  
Los Alamos National Laboratory

Sincerely,

David Rhodes, Supervisory Federal Project Director  
Environmental Projects Office  
Los Alamos Field Office
