Subject: **Request for Extension of Time to Respond to Request for Information, Los Alamos National Laboratory**

Dear Mr. Kieling:

On June 29, 2018, the New Mexico Environment Department (NMED) issued a Request for Information (RFI), pursuant to NMSA 1978, Section 74-4-4.3.A of the New Mexico Hazardous Waste Act to the U.S. Department of Energy (DOE) and Los Alamos National Security, LLC (LANS) (collectively the Permittees). NMED is requesting additional information based on review of the Permittees response dated April 5, 2018, to the December 19, 2017 RFI from NMED.

Permittees received the current RFI on July 5, 2018, with a required response date of July 30, 2018. NMED is requesting that the Permittees furnish additional information regarding characterization and documentation associated with specific waste streams from 2016 through 2018.

The Permittees respectfully request a 60-day extension of time until September 28, 2018 to provide a response due to the volume of documentation requested covering 2016-2018. This will require additional time for the Permittees to gather, review and organize the applicable documents requested. This includes laboratory analytical reports, hazardous waste determinations, waste profile discrepancies, disposal documents, and communications associated with waste streams generated by specific projects or at specific locations.

If you have comments/questions or would like to meet regarding this submittal, please contact Patrick L. Padilla at (505) 667-3932 or Karen Armijo at (505) 665-7314.

Sincerely,

William R. Mairson
Associate Director

Sincerely,

Peter Maggiore
Deputy Assistant Manager

Subject: **Request for Extension of Time to Respond to Request for Information, Los Alamos National Laboratory**

Dear Mr. Kieling:

On June 29, 2018, the New Mexico Environment Department (NMED) issued a Request for Information (RFI), pursuant to NMSA 1978, Section 74-4-4.3.A of the New Mexico Hazardous Waste Act to the U.S. Department of Energy (DOE) and Los Alamos National Security, LLC (LANS) (collectively the Permittees). NMED is requesting additional information based on review of the Permittees response dated April 5, 2018, to the December 19, 2017 RFI from NMED.

Permittees received the current RFI on July 5, 2018, with a required response date of July 30, 2018. NMED is requesting that the Permittees furnish additional information regarding characterization and documentation associated with specific waste streams from 2016 through 2018.

The Permittees respectfully request a 60-day extension of time until September 28, 2018 to provide a response due to the volume of documentation requested covering 2016-2018. This will require additional time for the Permittees to gather, review and organize the applicable documents requested. This includes laboratory analytical reports, hazardous waste determinations, waste profile discrepancies, disposal documents, and communications associated with waste streams generated by specific projects or at specific locations.
