Subject: General Part A Permit Application (Revision 11.0) for the Los Alamos National Laboratory, EPA ID# NM0890010515

Dear Mr. Nance:

This letter transmits the most recent version of the Los Alamos National Laboratory (LANL) Part A Permit Application to the New Mexico Environment Department-Hazardous Waste Bureau (NMED-HWB) in support of renewal of the 2010 LANL Hazardous Waste Facility Permit. This version replaces revision 10.0 of the document submitted in June 2020, and includes the information required by Title 40 of the Code of Federal Regulations (CFR) § 270.13. In accordance with the 2010 LANL Hazardous Waste Facility Permit, the Permittees are authorized to manage, store, and treat hazardous wastes at LANL. The Permittees consist of the United States Department of Energy (DOE) and its field offices, the National Nuclear Security Administration, Los Alamos Field Office (NA-LA) and the Environmental Management, Los Alamos Field Office (EM-LA), together with Triad National Security, LLC (Triad) and Newport News Nuclear BWXT-Los Alamos, LLC (N3B). Per Permit Section 1.6.5, *Permit Re-Application*, the Permittees submitted an application for a new permit in June 2020. Since then, the NMED-HWB and Permittees have engaged in comments and responses to move towards an administratively complete determination. This Part A Application includes all currently operating hazardous waste management units at LANL.

As an overview of LANL RCRA permitted activities, Triad/NA-LA will continue to co-operate responsibilities at the hazardous waste management units at Technical Areas (TAs) 3, 14, 16, 36, 39, 50, 55, 60, 63, and 54 West. N3B/EM-LA will continue to co-operate the units located at TA-54, Areas G, H, and L. This application updates figures and maps (where necessary), updates the process code (from S01 in previous revisions to S99) associated with the storage shafts at TA-54, Area G for consistency with the 2010 Permit, incorporates all previous changes within the form as processed through permit modifications, and updates contact information and organizational changes where appropriate.

Please note that the Part A application is divided into two distinct sections. One section (the large binder labeled “Enclosure 1”) does not contain sensitive information and can be released to the public. The second section includes an envelope marked “UCNI” and contains Unclassified Controlled Nuclear Information (UCNI) as defined by the Atomic Energy Act, Section 148 and 10 CFR §1017. This

information, which is submitted as confidential information in compliance with 40 CFR § 270.12, is for the NMED's use only and must be managed and stored appropriately. If there are any questions as to what type of arrangements are required for federally compliant storage and management of UCNI information, please contact the Permittees. Three hard copies and one electronic copy (omitting the UCNI information) of the submittals are included with this transmittal letter.

If you have questions or comments for Triad concerning this submittal, please contact Robert A. Gallegos (NA-LA) at (208) 569-0377 or Luciana Vigil-Holterman (Triad) at (505) 665-3435.

If you have questions or comments for N3B concerning this submittal, please contact Brian Harcek (EM-LA) at (505) 692-4261 or Christian Maupin (N3B) at (505) 695-4281.

This version replaces revision 10.0 of the document submitted in June 2020, and includes the information required by Title 40 of the Code of Federal Regulations (CFR) § 270.13.
