Subject: Settlement Agreement and Stipulated Final Order HWB-14-20, Annual Report for Period Ending July 22, 2026 (EPA ID# NM0890010515)

Dear Mr. Nance:

The United States Department of Energy (DOE) and its field offices—the National Nuclear Security Administration Los Alamos Field Office (NA-LA) and the Environmental Management Los Alamos Field Office (EM-LA)—along with Triad National Security, LLC (Triad) and Newport News Nuclear BWXT-Los Alamos, LLC (N3B), collectively, the Permittees, submit the enclosed Settlement Agreement and Stipulated Final Order (SFO) HWB-14-20, Annual Report for Period Ending July 22, 2026 (Annual Report) to the New Mexico Environment Department-Hazardous Waste Bureau (NMED-HWB). The Annual Report is submitted as required by Attachment A of the Settlement Agreement and SFO HWB-14-20, entered into by the NMED, DOE, and Los Alamos National Security, LLC (LANS) on January 22, 2016.

On November 30, 2018, operational responsibilities at Los Alamos National Laboratory (LANL) were transferred from LANS to Triad. On April 30, 2018, N3B assumed the Environmental Management scope of work at LANL. In 2020, Triad and N3B technical staff met with the NMED-HWB staff to discuss a joint (NA-LA/EM-LA) submittal of the report to meet the NMED-HWB compliance expectations.

This report respectfully provides the required information within two enclosures. Enclosure 1 provides the status of specific procedures outlined in Attachment A of the SFO and certification for NA-LA/Triad operations. Enclosure 2 provides the status of specific procedures outlined in Attachment A of the SFO and certification for EM-LA/N3B operations.

This annual report is drafted to address many of the Ordered Actions in the SFO Attachment A that refer to specific procedures. When the procedures are referenced in Attachment A under the column “Documentation to Provide as Evidence of Completion,” the following requirement is found:

Provide periodic [Semi-annually, or upon NMED request] listing of document(s) revision.

Enclosures 1 and 2 list all procedures revised since they were first submitted to the NMED-HWB as part of the Ordered Action responses, including the revised effective dates. As stated in Attachment A, electronic access to all current document revisions will be provided by the respective respondents upon request by the NMED-HWB.

It was agreed that the Respondents would provide the required document list on January 22 and July 22 of each year; however, the NMED-HWB updated the reporting requirements as of August 31, 2020, pursuant to ESHID-603595, "Respondents have met the notification requirements of the Settlement Agreement and Stipulated Final Order HWB-14-20. NMED is reducing the frequency of reporting from semi-annual to annual."

If you have any questions for Triad or NA-LA, please contact Naveen Chennubhotla (Triad) at (505) 629-7401, naveenc@lanl.gov or Robert Gallegos (NA-LA) at (505) 901-3824, robert.gallegos@nnsa.doe.gov.

Enclosure 1

Action required (per Stipulated Final Order Attachment A):

“Provide periodic [Semi-annually, or upon NMED request] listing of document(s) revisions.

NMED ESHID-603595, dated August 21, 2020 “The Respondents have met the notification requirements of the Settlement Agreement and Stipulated Final Order HWB-14-20. NMED is reducing the frequency of reporting from semi-annual to annual [...].”

When due:

July 22 of each year until the requirement expires.

Enclosure 1

Document Title	Version Submitted with 3/22/2016 Ordered Action	Revisions and Effective Date since Submittal
WM-AP-0005, <i>Waste Characterization and Processing Review</i>; superseded by EPC-WMP-AP-005, R2, <i>Waste Characterization and Processing Review</i> EPC-WMP-005, <i>Waste Characterization and Processing Review</i>, formerly, WM-AP-005, was implemented as a response action to develop procedures to implement an AK communication system within and among appropriate LANL organizations—including subcontractors—to ensure that AK documentation is accurate, sufficient, and updated; and provide additions to the procedures and policies that ensure the proper LANL organizations and subject matter experts review and then approve or reject proposed waste management procedural changes. The Laboratory has also since implemented functions in other procedures across the Laboratory to fully ensure Resource Conservation Recovery Act (RCRA) compliance, reduce hazards, improve safety associated with LANL waste processing and management and the review and compliant resolution of complex waste issues related to waste characterization and processing; ensure communication between those processes. These implementations will ensure that waste stream profile AK documentation is accurate, sufficient, and updated. These procedures include the requirements so that procedure EPC-WMP-005 is no longer necessary to bridge communications between waste characterization and processing. The newly listed procedures continue to ensure that waste stream profiles, associated documentation, and waste processing procedures are thoroughly reviewed by subject matter experts. Procedures to ensure the applicable ordered actions continue to include the following procedures for which status has already been reported herein. • P409, <i>LANL Waste Management</i> • ESH-AP-014, <i>Regulatory Review for Waste Management Compliance Work Control Documents</i> • IG-P409-0002, <i>Waste Management Glossary</i> • FSD-P409-0300, <i>Waste Characterization and Compatibility</i> • IG-P409-0233, <i>Management of Universal Waste</i> • IG-P409-0234, <i>Management of Used Oil for</i>	WM-AP-0005, R1, 02/18/2016	EPC-WMP-AP-005, R2, 10/16/2019, Canceled FSD-P409-0305, R1, <i>Acceptable Knowledge Package Requirements for NNSS Low-Level/Mixed Low-Level Waste</i>, 08/17/2021, Canceled 06/03/2024 The following documents are active replacements: TA-55-RD-539, R11, <i>TA-55 FOD Waste Management Requirements</i>, 03/28/2023 TA-55-RD-539, R12, <i>TA-55 FOD Waste Management Requirements</i>, 10/04/2023 TA-55-RD-539, R13, <i>TA-55 FOD Waste Management Requirements</i>, 08/12/2024 PA-AP-01146, R2, <i>Acceptable Knowledge Documentation Procedure</i>, 08/23/2022 PA-AP-01146, R2.1, <i>Acceptable Knowledge Documentation Procedure</i>, 09/22/2025 AP-P409-0101, R1, <i>Difficult Waste Streams</i>, 05/15/2023 AP-P409-0101, R1.1, <i>Difficult Waste Streams</i>, 05/14/2026
