 New Mexico Environment Department  
 2905 Rodeo Park Drive East, Building 1  
 Santa Fe, NM 87505-6303

**Subject: Request for Extension to Complete Perched-Intermediate Well R-10i**

Dear Mr. Kieling:

This letter requests an extension from the January 20, 2012, date for completion of perched-intermediate well R-10i to a new date of January 20, 2014. The U.S. Department of Energy (DOE) and Los Alamos National Security (LANS), LLC, request this extension in order to focus efforts on accelerating the shipment of aboveground transuranic (TRU) waste from Los Alamos National Laboratory's Technical Area 54, Area G, to the Waste Isolation Pilot Plant. This focus will result in a material reduction of environmental risk. This acceleration of TRU waste shipments will also allow DOE/LANS to support the environmental priorities established by the New Mexico Environment Department and the State of New Mexico.

This new date to complete perched-intermediate well R-10i was developed to support the mutual goal of environmental risk reduction. DOE/LANS request this extension under Section III.J.2 of the March 2005 Compliance Order on Consent.

If you have any questions, please contact Jarrett Rice at (505) 500-5673 (wjrice@lanl.gov) or Peter Maggiore at (505) 665-5658 (peter.maggiore@nnsa.doe.gov).

Sincerely,

Michael J. Graham, Associate Director  
 Environmental Programs  
 Los Alamos National Laboratory

Sincerely,

George J. Rael, Assistant Manager  
 Environmental Projects Office  
 Los Alamos Site Office
