Subject: NPDES Permit No. NM0030759 Individual Storm Water Permit Renewal Application

Dear Ms. Brown and Mr. Chen:

Please find enclosed one original and one copy of the application (Volumes 1 and 2) for the Individual Permit Application for Storm Water Discharges from solid waste management units (SWMUs) and areas of concern (AOC) at Los Alamos National Laboratory. This application is being submitted by the U.S. Department of Energy (DOE) and Los Alamos National Security, LLC (LANS) in accordance with the requirements of the Clean Water Act and the approved extension request received from U.S. Environmental Protection Agency (EPA) on April 8, 2013 (EP2013-5095).

The specific changes proposed for the draft permit associated with the renewed Individual Permit fall into the following categories: (1) substantive changes to reflect substantial new information from investigations and analysis conducted under the Compliance Order on Consent and Individual Permit storm water collection; (2) organizational changes to clarify, improve, and facilitate understanding of requirements of the Individual Permit; and (3) nonsubstantive changes and minor typographical errors. These changes are provided in the application submittal materials, and specific justifications for the changes are provided.

This application includes (1) supporting material that provides information regarding the scope and content of the renewal application; (2) a completed EPA Form 1, "General Information"; (3) completed EPA Form 2F, "Application for Permit to Discharge Storm Water Discharges Associated with Industrial Activity" covering SWMUs and AOCs at Los Alamos National Laboratory; and (4) a redline-strikeout version of existing permit language and appendices with a summary table describing proposed changes.

If you have any questions, please contact Steve Veenis at (505) 667-0013 (veenis@lanl.gov) or David Rhodes at (505) 665-5325 (david.rhodes@nnsa.doe.gov).

Sincerely,

Jeff Mousseau, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

Kimberly Davis Lebak
Manager
Los Alamos Field Office
