**RE: DEMOLITION NOTIFICATION FOR QUARTER ENDING MARCH 31, 2014
LOS ALAMOS NATIONAL LABORATORY
EPA ID #NM0890010515
HWB-LANL-MISC**

Dear Messrs. Turner and Grieggs:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE) and the Los Alamos National Security, LLC (LANS) (collectively, the Permittees) *Demolition Notification for Quarter Ending March 31, 2014* dated and received December 23, 2013, (referenced by WM-DO-13-0089/LA-UR-13-29432).

As stated by the Permittees, the investigations are not complete at several Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) located within 50 feet of the buildings proposed for demolition. The Permittees state that they will ensure that the sampling locations and depths proposed in the approved work plans are not affected by these activities. In the case of adverse impacts on the SWMUs/AOCs where investigations are not complete, the Permittees must document all demolition activities in detail so that any impacts on the SWMUs/AOCs can be identified and evaluated.

The Permittees must provide a copy of demolition reports, if prepared, to NMED within 30 days after the reports are complete in accordance with Section 1.17.3 of the Permit
