RE: DEMOLITION NOTIFICATION FOR QUARTER ENDING JUNE 30, 2024 AND LIST OF BUILDINGS AND ATTACHMENT OF HAZARDOUS MATERIALS DESCRIPTIONS LOS ALAMOS NATIONAL LABORATORY EPA ID #NM0890010515 HWB-LANL-MISC

Dear Robert A. Gallegos and Brian Harcek:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE), the National Nuclear Security Administration Los Alamos Field Office (NA-LA) and the DOE - Environmental Management Los Alamos Field Office (EM-LA), along with Triad National Security, LLC (Triad), and Newport News Nuclear BWXT-Los Alamos, LLC (N3B) (collectively, the Permittees) *Demolition Notification for Quarter Ending June 30, 2024 and List of Buildings and Attachment of Hazardous Materials Descriptions*(Notification) dated and received March 28, 2024, and referenced by EPC-DO-24-060/LA-UR-24-21565/EM2024-0056.

On April 16, 2024, NMED sent an email to DOE requesting additional information for the buildings (11-0036 and 72-0085) associated with the miscellaneous structures planned for demolition listed in the table in Enclosure 1 of the document. NMED identified additional SWMUs within the footprint of 11-0036 and was not able to locate the building 72-0085 in NMED GIS layers. NMED requested the Permittees review the information provided or for the Permittees to provide an updated table and/or building GIS layers.

May 10, 2024

Page 2

On April 22, 2024, NMED received updated figures for buildings 11-0036 and 72-0085 matching the information provided in Enclosure 1, Table 1. Triad also confirmed that an updated building and potential release site (PRS) layer would be provided to NMED to ensure consistency in reviews moving forward.

In future demolition notifications, the permittees must include all the SWMUs and AOCs within the 50 ft footprint future Demolition Notifications of the structure or building designated to be demolished in accordance with Permit Section 1.17.1(4). However, a response to NMED comments is not required.

Investigations are not complete at several SWMUs and AOCs located within 50 feet of the buildings proposed for demolition. The Permittees state that they will ensure that the sampling locations and depths proposed in the approved work plans are not affected by these activities. In the case of adverse impacts to the SWMUs/AOCs where investigations are not complete, the Permittees must document all demolition activities that affect any SWMU or AOC in detail so that any impacts on work proposed at the SWMUs/AOCs can be identified and evaluated.

The Permittees must provide a copy of demolition completion reports, if prepared, to NMED within 30 days after the reports are complete in accordance with Permit Section 1.17.3.

Please contact Siona Briley of my staff at 505-690-5160 should you have any questions.

Sincerely,

Ricardo Maestas
